

CRPS = 0.748

- forecast CDF $F(z)$, $N(0, 1)$
- outcome: $\mathbf{1}\{y \leq z\}$, $y = 1.2$
- squared gap integrated: CRPS

Two forecasts $N(0, \sigma^2)$

- log score, $\sigma = 1$
- log score, $\sigma = 0.5$
- CRPS, $\sigma = 1$
- CRPS, $\sigma = 0.5$
